

Understanding Cost, Benefit, & Reimbursement

How is my facility reimbursed for the session?

How is HEAL reimbursed for their time and facility?

HEAL does not provide medically billable services. We provide an environment for your facility to use as an aide to your own medically billable services. By recording the number of individuals who utilize our community resource, and our certified PATH instructors and assistants, HEAL qualifies for program and facility improvement grant monies through PATH. We must be able to prove that our facility and personnel are a community resource.
